IMPORTANT INFORMATION RELATED TO HEALTH INFORMATION EXCHANGE

Important legislation in the American Recovery and Reinvestment Act of 2009, enacted by Congress, includes important provisions which impact health care providers and patients alike. Among the provisions of this Act is the concept of Health Information Exchange (“HIE”).

Health information exchange (HIE) is defined as the mobilization of healthcare information electronically across organizations within a region or community. HIE provides the capability to electronically move clinical information among disparate health care information systems while maintaining the meaning of the information being exchanged. The goal of HIE is to facilitate access to clinical data to provide safer, more timely, efficient, effective, equitable, patient-centered care. HIE is also useful to Public Health authorities to assist in analyses of the health of the population.

Tallahassee Medical Group. participates in and provides patient information to HIE’s in certain circumstances in order to facilitate the coordinated continuum and exchange of healthcare information between facilities and providers.

For the purpose of informing you, our patient, concerning HIE in general, and our participation in and commitment to HIE, we have included a brief explanation and an example of a local resource of HIE in Tallahassee through HIE Networks (www.hienetworks.com)

PATIENT ACKNOWLEDGMENT, CONSENT WITH INSURANCE CERTIFICATION AND ASSIGNMENT, AND TREATMENT AUTHORIZATION

HIE Networks is engaged to deliver easier ways to communicate information and share HIPAA-compliant medical correspondence between healthcare providers. From electronic faxing to intuitive interfacing and clinical data exchange, communications are electronically streamlined to reduce errors and increase staff and patient satisfaction
Unless you specifically opt out as provided below your personal health information will be provided to organizations such as HIE Networks under secure methods with HIPAA compliant agreements. Tallahassee Medical Group and our physicians support this health information exchange as an important part of healthcare technology that facilitates communication and community coordination of your patient care.

Clinical data exchange generally includes a group of organizations and stakeholders that exchanges data electronically in a manner that is fully HIPAA compliant technologically and controlled by HIPAA compliant agreements between the parties in order to improve the quality, safety, and efficiency of healthcare delivery.

Example information on this effort and participation can be found at www.HIENetworks.com. Example information on HIE generally and the national efforts in that regard can be found at www.healthit.gov.

Insurers however ultimately reserve the right to process our claims and notify us of their final determination of your individual responsibility through the claims filing process. Our initial determination of your portion of financial responsibility prior to your scheduled service is therefore strictly preliminary and may be subject to adjustment when claims are processed by the insurer. We reserve the right to avoid the cost of sending statement to patient who have a small balance outstanding (usually less than $5.00). Our front staff will collect the balance at your next office visit for small balances.
- **Financial Promissory Agreement:** If you are unable to make payment in full for your portion of financial responsibility at time of service, you will be required to sign **a Financial Promissory Agreement** giving you 14 calendar days to submit payment in full**.
